

REPORT

Mahatma Gandhi Institute of Rural Energy and Development celebrated

INTERNATIONAL DAY OF FOREST on 22/03/2016

MGIRED observed International Day of Forest and World Water Day on 22.03.2016 where about 122 students from Venkateshwara College of Engineering, Yelahanka and Govt First Grade College, Yelahanka were given awareness on Importance of Forests by Sri.Punati Sridhar IFS, APCCF & Executive Director, MGIRED who emphasized on Conservation of the remaining forests for better future. He also stressed on the fact that if each person plants a sapling we will have 1.252 billion saplings will be added in our country, which will help in managing climate change to some extent. He also stressed on the problems associated with water and need for taking pro active role in conserving water resources as individuals and organizations.

Dr.Shobha Anand Reddy, Additional Director & HOD, Dept of Environment sensitized students on Climate change mitigation measures by life style modification.

Dr.Veena Srinivasan, Fellow, Centre for Environment and Development, ATREE, educated students on Sustainable Management of Water Resources.

Mr.Aravind M R, Assistant Director, MGIRED educated students on Renewable Energy and Energy Conservation.

Students were given an opportunity to plant 4 saplings in MGIRED premises. Each college was given Biofuel plants to plant in their campus.
